Dear Hiring Manager,

I am writing to express my interest in mobile application development opportunities where I can contribute as a Flutter-focused Full Stack Mobile App Developer.

I am a **Senior Mobile App Developer** with **3+ years** of professional experience building production Android and iOS apps. I specialize in **Flutter** and have shipped **25+ applications** across client projects and self-owned products — from architecture and UI through App Store and Play Store release.

My recent work includes apps across safety, lifestyle, commerce, social, and utility categories, with strong experience in Firebase, Supabase, REST APIs, store submission, and post-launch iteration. I care about clean architecture, reliable releases, and product quality that holds up in real users' hands.

I am currently open to **remote roles**, freelance engagements, and long-term collaborations with teams that value ownership, clear communication, and shipping. I would welcome the chance to discuss how I can help your product move faster on Android and iOS.

Thank you for your time and consideration. I have attached my resume for your review, and I look forward to connecting.

Sincerely,

Muhammad Saim

Full Stack Mobile App Developer
